

What is Respite Care?

Respite care is short-term care for a child or adult that allows the primary caregiver relief.

Respite Care

Provides a break or period of relief for the caregiver of an older adult, a child, or a person with disabilities; allows a caregiver to go away for a specified period of time ranging from a couple of hours to a couple of weeks; provides personal or supportive care to older adults and people with disabilities;

Types of Respite

Respite care is very flexible and can easily fit into your family's schedule. Here are some of the kinds of respite we provide:

Overnight Care: A Professional caretaker can come to your home over a night shift.

Personal Care Assistance: Our caregivers can come to your home for couple of hours or more depending on the need.

Weekend Care: Planning for a weekend event or get away, our caregivers are available to meet the need.
